

## Improve your cash flow when you need it most

With U.S. Freight Payment, you already receive payment to invoice terms upon shipper approval. Now, you can monitor your cash flow and receive payments more quickly.

### Visibility into your cash flow

You can easily see when payments are expected with the Cash Manager dashboard. The at-a-glance views show you day-to-day and long-term cash flow, so you can forecast more accurately and make more informed business decisions. With ongoing insight into when to expect payments, it's easy to choose which invoices you'd like to accelerate with Quick Pay.

### Accelerated payments

A convenient option via the Cash Manager dashboard, Quick Pay lets you pick which approved invoices you'd like to accelerate, for a fee. It's not factoring and it's not a loan. This flexible solution gets you the money you need when you need it most and you can submit requests online anytime with the simple click of a button.

### Try Quick Pay today.

- Log on to [U.S. Bank Freight Payment](#)
- Click on **Cash Manager**
- Click on **Request Access**
